

Appendix II: Human Resources Offices and Other Resources

Human Resources Offices

The University of Illinois has several *human resources* offices which handle various functions depending on their particular area of authority. In addition to the University Office of Human Resources (UOHR), there are two main human resources offices on the UIC campus: Faculty Affairs Human Resources (FAHR), UIC Human Resources (UICHR), and Student Employment.

1. Faculty Affairs Human Resources: [UIC Faculty Affairs Human Resources](#)

FAHR is located within the Office of the Vice Provost for Faculty Affairs, who reports directly to campus chief academic officer, the Provost/Vice Chancellor for Academic Affairs. In conjunction with the Office of the Vice Provost for Faculty Affairs, FAHR supports the mission of UIC faculty members who perform the teaching, research and public service functions by providing quality, innovative, service-oriented, client-focused, and timely human resources programs, policies, and services. FAHR's mission is to support and strengthen the UIC campus's ability to attract, retain, develop, and motivate faculty in support of UIC's mission and goals.

2. UIC Human Resources: [UIC Human Resources](#)

UIC Human Resources is located within the Office of Vice Chancellor for Human Resources. UICHR works in partnership with UIC colleges and departments coordinating human resources policies, procedures, and practices for all academic professional employees (percent time and hourly) all civil service employees, all graduate student assistants, and all extra help employees on the Chicago campus. UICHR's mission is to embody the best practices of the Human Resources profession in their delivery of customer-focused, fully integrated, efficient Human Resources services and programs to civil service and academic professional employees and the University.

3. Student Employment: [UIC Office of the Vice Chancellor of Student Affairs](#)

Student Employment is an area within the Office of Career Services and is a centralized service that offers assistance to students who are looking to find a part-time job either on or off campus. Student Employment assists both university Departments and off-campus employers who are seeking to hire students for part-time job openings. Various job fairs are offered throughout the year by Student Employment.

4. University of Illinois Human Resources: [UA Human Resources](#)

The University of Illinois Human Resources, also referred to as University Office of Human Resources (UOHR), is a unit of University Administration (UA) that is responsible for various human resources initiatives servicing the three campuses. UIHR serves as primary liaison to the Illinois Department of Central Management Services (CMS) and the State Universities Civil Service System (SUCSS) on human resources and benefit related issues, and to the State Universities Retirement System (SURS) on retirement related issues.
